I have been waiting on this one. In my opinion, Dreamgirls is one of the best musicals written. Smart, powerful musical numbers, along with larger than life characters! Dreamgirls is a must-own for all gbt people. Oprah Winfrey said: "Dreamgirls defines spectacular" and I agree. I'll be hosting my own Opening Night of Dreamgirls on Tuesday, May 1. Be sure to get your copy of Dreamgirls.

Dreamgirls : Beyonce Knowles, Jennifer Hudson, Anika Noni Rose

Customer Review:

I saw the original Los Angeles production with Jennifer Holliday. It was rightfully described as a living film. Every scene flowed into the next, no blackouts. Add to that a brilliant book and score with sets, costumes and lighting to match, you have an incredible experience.
